CAREER OBJECTIVE

Computer Science and Engineering student with hands-on experience in frontend development, JavaScript, Java, and AI-powered web applications. Passionate about building responsive, user-centric software solutions. Seeking a Software Development Engineer (SDE) or Frontend Developer role to contribute while continuously enhancing technically Expertised And Recently Explored AIML

TECHNICAL SKILL

Languages: Java, SQL

Web: HTML5, CSS3, JavaScript

Tools: Git, GitHub, VS Code

Core: Computer Network and Web Technologies

INTERNSHIP

Full Stack Development Intern – Viruzver Solution (Dec 2025 – Jan 2026)

- Developed responsive cross-browser web pages using HTML, CSS and JavaScript.
- Collaborated on frontend features, debugging, and Git-based workflows.

PROJECT

- Developed a **full-stack public transit web application** using JavaScript, HTML5, CSS3, Node.js, and Express.js with responsive and interactive interfaces for real-time transit information.
- Built and integrated **backend APIs** for bus telemetry, routes, schedules, passenger occupancy, and congestion data, enabling dynamic frontend-backend communication and real-time data updates.
- Implemented **AI-powered transit assistance, QR ticket validation, congestion visualization, occupancy monitoring, and bandwidth-efficient polling** for practical real-world transit use cases.

Key Learning: Strengthened JavaScript and frontend development skills while gaining hands-on experience in **Node.js, Express.js, API integration, backend development, real-time data handling, responsive UI design, and full-stack application deployment.**
